## WORK EXPERIENCE

### Delberto E-com

Web Developer

2022 - 2022

- My Role was Frontend Developer and my responsibility are to develop Website Using HTML, CSS, JavaScript and Bootstrap. and also make responsive layout and here I done some work on figma.
- <https://www.delberto.club/>

### Stm Journals

Web Developer

2022 - 2023

- In Stm Journals my role was Collaborate with project stakeholders, such as product managers and designers, to understand project requirements. Design the overall architecture of the application, including database schema, backend APIs, and frontend components. Choose the appropriate technologies and tools for the project. Develop server-side logic and APIs using Node.js and Express.js. Set up and configure the server environment. Integrate with databases (usually MongoDB) for data storage. Implement authentication and authorization mechanisms. here i learn lot of things they help me in future.
